## Develop Customer-Centered Culture

When you experience exceptional customer service, you know it. And when you don't, you also know it! How do you ensure that it is **regularly and consistently** offered to your clients and internally to employees?

Exceptional customer service requires healthy **organizational values and culture and employee attitudes and skills**. It includes high quality employee training and **feedback** from co-workers, supervisors, **and customers**. Customer service professionals also needs structured **support** from colleagues and supervisors and **a process to debrief** after difficult situations. This training helps staff at all levels build their customer service skills.
