Good Grants Management MATTERS

When you experience turnover, hire new staff, or face a loss of institutional knowledge, your organizations and tribes may become vulnerable to grant chaos or, even worse, grant losses.

Protect your programs and your reputation with funders. Ensure that your staff can:

- ▶ Implement your programs successfully
- ▶ Submit necessary budget revisions
- ▶ Conduct timely reporting
- ▶ Follow appropriate financial management, asset protection & records retention requirements

Don't agonize, organize! Save stress, chaos, and time. Create the foundation for clean site visits and audits. Build your bench! Institutionalize and spread this knowledge across departments and functional areas.

Please Note:

While components of new Federal grant standards are covered, this training is applicable to many public & private grants.
